

## STANDARDIZED TEST SCORES

At Carden School of Fresno, we do not believe that national testing shows the full scope of a student's abilities. It is, however, a fair measure of improvement and overall performance. CSOF administers the Stanford Achievement Test Series, Tenth Edition (SAT 10) for student performance assessment.

A summary of student averages for the 2017-2018 academic year is listed below.

|                |   |
|----------------|---|
| First Grade:   | The average CSOF first grade student performed at a 2.3 (second grade, third month) grade equivalent and in the 67 <sup>th</sup> percentile (national average). |
| Second Grade:  | Students averaged a 3.5 grade equivalency and in the 67 <sup>th</sup> percentile.   |
| Third Grade:   | The student average was a grade equivalent of 6.8 with performance in the 84 <sup>th</sup> percentile.  |
| Fourth Grade:  | Average student performance was in the 80 <sup>th</sup> percentile with a grade equivalency of 7.3.   |
| Fifth Grade:   | The average student scored in the 76 <sup>th</sup> percentile and at a 7.2 grade equivalency.   |
| Sixth Grade:   | These students averaged in the 79 <sup>th</sup> percentile with a grade equivalency of 12.9.  |
| Seventh Grade: | The average grade equivalent was 11.2 and students performed in the 74 <sup>th</sup> percentile.  |
| Eighth Grade:  | Our eighth graders scored at the 12.2 grade equivalency and in the 87 <sup>th</sup> percentile.   |

The overall average percentile ranking for the CSOF students tested in the 2017-2018 academic year is 79. On average, our students scored at 2.5 grade levels above the national average.
